CyASIA
CYBER CONFERENCE OF AESTHETIC DERMATOLOGY
AND SKIN SURGERY IN APAC

Dear Colleagues and Friends,

Welcome to the **3rd edition of the Aesthetic Medicine & Surgery Conference & Exhibition (AMSC) Malaysia**, hosted at the iconic Kuala Lumpur Convention Centre (KLCC) in the heart of Kuala Lumpur, on 20 & 21 September 2024, **Uniting the Global Leaders of Aesthetic Medicine, Dermatology and Surgery!**

AMSC Malaysia - **ASEAN Leading Annual Conference & Exhibition on Aesthetic Medicine, Dermatology And Surgery** offers a unique platform for knowledge exchange, networking, and showcasing the latest advancements.

As you embark on this enriching journey, you'll be able to immerse yourself in our comprehensive and carefully curated program. From the hands-on experience of our pre-conference **Cadaver Dissection Hands-on Masterclass** to the insightful discussions and presentations during the conference, as well as post-conference **Ultrasound Workshop**, we have curated a learning experience that caters to your professional development. We believe that this event will not only inspire and educate but also foster collaboration and innovation within the field.

With **more than 150 brands participating in the exhibition**, you will have the opportunity to discover latest advancements that are shaping the future of aesthetic medicine, network with industry leaders, and discover new opportunities to enhance your practice.

Beyond the clinical aspects, we have also designed a **non-clinical track that addresses the business management side** of aesthetic medicine. Learn from experienced professionals and gain valuable insights into running a successful practice.

AMSC Malaysia 2024 concludes in style with a glamorous **Gala Night**, an evening filled with fun, entertainment, and networking opportunities. Celebrate your achievements and forge lasting connections with your peers

We hope that AMSC Malaysia will be a memorable and inspiring experience for you. Thank you for joining us on this exciting journey.

Dr Masilamoney Asirvatham
*President of the Malaysian Society
of Aesthetic Medicine (MSAM)*

Dr Tingsong Lim
Scientific Director of AMSC

Gary Chai
*Deltus Sdn Bhd
Co-founder and Organiser*

Scientific Committee

Dr Aly Stephen Nah
Committee Member
of MSAM

Dr Alice Goh
Treasurer of
MSAM

Dr Benji Teoh Tze Yuen
Assistant Secretary
of MSAM

Dr Nicholas Lye
Committee Member
of MSAM

Dr Ian Chong
Committee Member
of MSAM

Dr Nurul Ain
Committee Member
of MSAM

Dr Yeoh Tze Ming
Surgical Scientific
Chairman of AMSC
Malaysia 2024

Dr Edmond Lau
Committee Member
of MSAM

Dr Chu Kooi Yen
Honorary Secretary
of MSAM

SPEAKERS SPOTLIGHT: World Class Speakers From 25 Countries

Dr Tingsong Lim
Aesthetic Doctor
Malaysia

Dr Siew Tuck Wah
Aesthetic Doctor
Singapore

Sky Wong
Hong Kong

Dr Choi Ho Sung
Cosmetic Surgeon
South Korea

Dr Jani van Loghem
Aesthetic Doctor
Netherlands

Dr Konstantin Frank
Plastic Surgeon
Spain

Dr Rami Haidar
Maxillofacial Surgeon
UAE

Dr Luciano Lanfranchi
Plastic Surgeon
Italy

Dr Peter Velthuis
Dermatologist
Netherlands

Dr Chrang-Shi Lin
Dermatologist
Taiwan

Dr Benrita Jitaree
Anatomist
Thailand

Dr Alice Goh
Oculoplastic Surgeon
Malaysia

Dr Jeff Huang
Dermatologist
Taiwan

Dr Kyuho Yi
Aesthetic Doctor
South Korea

Dr Stephanie Young
Oculoplastic Surgeon
Singapore

Dr Leong Kin Fon
Dermatologist
Malaysia

Dr Arash Jalali
Aesthetic Doctor
Canada

Dr Omar Haroon
Plastic Surgeon
Switzerland

Dr Davin Lim
Dermatologist
Australia

Dr Gavin Chan
Aesthetic Doctor
Australia

Dr Lee Kim Siea
Plastic Surgeon
Malaysia

Dato' Dr N Sutina Nordin
Aesthetic Doctor
Malaysia

Dr Farid Kazem
Plastic Surgeon
Netherlands

Dr Cam Thuy, Pham
Dermatologist
Vietnam

Dr Nalinnee Sutthipisal
Dermatologist
Thailand

Dr Youngseob Lee
Plastic Surgeon
South Korea

Dr Ananda Dorai
Plastic Surgeon
Malaysia

Dr Yap Lok Huei
Plastic Surgeon
Malaysia

Dr Daniel Looi Qi Hao
Scientist
Malaysia

Dr Chatbongkoch Khemacheewakul
Dermatologist
Thailand

SPEAKERS SPOTLIGHT: World Class Speakers From 25 Countries

Dr Danai Praditsuwan
Aesthetic Surgeon
Thailand

Dr John Ranjit
Plastic Surgeon
Malaysia

Dr Saetawut Lertlukprecha
Dermatologist
Thailand

Dr Kian Tjon TAN
Plastic Surgeon
United Kingdom

Dr Cyril Mitchel Tecson Agan
Aesthetic Doctor
Philippines

Dr Tom van Eijk
Aesthetic Doctor
Netherlands

Dr Nicole Chiang
Dermatologist
United Kingdom

Dr Martin Barsch
Dermatologist
Austria

Dr Terry Yen Shih Chun
Plastic Surgeon
Taiwan

Mr Jan Raymond Conadera
Marketing Director
Philippines

Dr Oleksandr Turkevych
Dermatologist
Ukraine

Dr Najmi Bin Ismail
Senior Principal Assistant Director,
Medical Practice Division, Ministry of Health
Malaysia

Dr Francisco Llano
Plastic Surgeon
Mexico

Dr Ngiam Juzheng
Aesthetic Doctor
Singapore

Dr Christopher Lee Chung Hou
Cosmetic Surgeon
Australia

Dr Kiêu Mai Mỹ Dung
Dermatologist
Vietnam

Dr Sylvia Ramirez
Aesthetic Doctor
Singapore

Dr Inneke Jane Hidajat
Dermatologist
Indonesia

Dr Sach Mohan
Dermatologist
United Kingdom

Dr Chaloechai Sriakrapong
Aesthetic Doctor
Thailand

Dr Steve Chia
Aesthetic Doctor
Malaysia

Dr Thisara Weerasamai
Aesthetic Gynaecologist
Thailand

Dr Antonino De Pasquale
Plastic Surgeon
Italy

Dr Vivien See Kai Ying
Aesthetic Doctor
Malaysia

Dr Atsushi Hayashi
Dermatologist
Japan

Dr Phyo Aung Su
Dermatologist
Myanmar

Dr Patrick Huang
Dermatologist
Taiwan

Dr Ki Woong Yu
Dermatologist
South Korea

Dr Joel L. Javate
Dermatologist
Philippines

Dr Bui Nguyen Phuong Anh
Dermatologist
Vietnam

SPEAKERS SPOTLIGHT: World Class Speakers From 25 Countries

Dr Van Thai Thi Dieu
Dermatologist
Vietnam

Dr Edmond Lau
Aesthetic Doctor
Malaysia

Dr Elena Rumyantseva Mathey
Dermatologist
Switzerland

Dr Park Young Jin
Aesthetic Doctor
South Korea

Dr Tiffany Tee Xiang Jie
Aesthetic Doctor
Malaysia

Dr Maria Julieta Arambulo-Cordero
Dermatologist
Philippines

Dr Ling Hee Ninh (Ruth)
Dermatologist
Malaysia

Dr Kamphon Socharoentam
Dermatologist
Thailand

Dr Jagjeet Singh
Plastic Surgeon
Malaysia

Dr Masilamoney Asirvatham
Aesthetic & General Practitioner
Malaysia

Dr Ong Kuok Tjun
Aesthetic Doctor
Malaysia

Dr Hew Yin Keat
Aesthetic Doctor
Malaysia

Dato' Dr Noor Zalmi Azizan
Dermatologist
Malaysia

Dr Nurul Ain Abdullah
Aesthetic Doctor
Malaysia

Dr Jesse Chong
Aesthetic Doctor
Malaysia

Dr Chin Shih Choon
Aesthetic Doctor
Malaysia

Dr Jason Yip
Aesthetic Doctor
Malaysia

Dr Aly Stephen Nah
Aesthetic Doctor
Malaysia

Dr Liow Tiong Sin
Aesthetic Doctor
Malaysia

Dr Omer Buhsem
Plastic Surgeon
Turkey

Dr Li Yuan Hong
Dermatologist
China

Dr Victor Cheong Mun Khan
Plastic Surgeon
Malaysia

Dr Hannah Lo
Aesthetic Doctor
Malaysia

Dr Jacqueline Luna
Dermatologist
Philippines

Dr Cheok Jia Rhong
Aesthetic Doctor
Malaysia

Dr Usha Hoh
Aesthetic Doctor
Malaysia

Dr Foo Wing Jian
Aesthetic Doctor
Malaysia

Dr Maiza Tusimin
Gynaecologist
Malaysia

Dr Paul Chia Min Wee
Dermatologist
Singapore

Dr Lee Sut Enn
Dermatologist
Malaysia

SPEAKERS SPOTLIGHT: World Class Speakers From 25 Countries

Mr Benjamin White
EVP International
Business Development
United States

Dr Wong Siu Bee
Dermatologist
Malaysia

Dr E Chia Qi
Dermatologist
Malaysia

CHAIRPERSON SPOTLIGHT:

Dr Tingsong Lim
Aesthetic Doctor
Malaysia

Dr Siew Tuck Wah
Aesthetic Doctor
Singapore

Dr Jani van Loghem
Aesthetic Doctor
Netherlands

Dr Alice Goh
Oculoplastic Surgeon
Malaysia

Dr Yap Lok Huei
Plastic Surgeon
Malaysia

Dr Edmond Lau
Aesthetic Doctor
Malaysia

Dr Masilamoney Asirvatham
Aesthetic & General Practitioner
Malaysia

Dr Ong Kuok Tjun
Aesthetic Doctor
Malaysia

Dr Hew Yin Keat
Aesthetic Doctor
Malaysia

Dr Nurul Ain Abdullah
Aesthetic Doctor
Malaysia

Dr Jason Yip
Aesthetic Doctor
Malaysia

Dr Aly Stephen Nah
Aesthetic Doctor
Malaysia

Dr Hannah Lo
Aesthetic Doctor
Malaysia

Dato' Dr N Sutina Nordin
Aesthetic Doctor
Malaysia

Dr Nicholas Zhi Xiong Lye
Aesthetic Doctor
Malaysia

Dr Anna Hoo
Aesthetic Doctor
Malaysia

Dr Derrick Shao Rong Liew
Aesthetic Doctor
Malaysia

Dr Jason Teng Jia Hao
Aesthetic Doctor
Malaysia

Dr Oh Soon Keon
Aesthetic Doctor
Malaysia

Dr Thomas Low
Aesthetic Doctor
Malaysia

Dr Lynda Quah
Aesthetic Doctor
Malaysia

Dr Lim Jia Hong
Aesthetic Doctor
Malaysia

Dr Kavin Tan
Aesthetic Doctor
Malaysia

Dr Ho Meng Jun
Aesthetic Doctor
Malaysia

Dr Elizabeth Lee
Aesthetic Doctor
Malaysia

Dr Amirul Nazri
Aesthetic Doctor
Malaysia

Dr Rasool Shaik Mohamed
Aesthetic Doctor
Malaysia

Dr Daniel Chin Hong Jeng
Aesthetic Doctor
Malaysia

Dr Allan Yong
Aesthetic Doctor
Malaysia

Dr Tze Ming Yeoh (Jimmy)
Plastic Surgeon
Malaysia

CHAIRPERSON SPOTLIGHT:

Dr Daniel Yap
Aesthetic Doctor
Malaysia

Dr Tristan Tan
Aesthetic Doctor
Malaysia

Dr Aina Aszeme
Aesthetic Doctor
Malaysia

Dr Douglas Yuen
Aesthetic Doctor
Malaysia

Dr Aren Yong
Aesthetic Doctor
Malaysia

Dr Darren Teo Chee Yang
Aesthetic Doctor
Malaysia

Dr Jason Ho
Aesthetic Doctor
Malaysia

Dr Dinesh Kanasen
Aesthetic Doctor
Malaysia

Dr Raimie Bin Rahmad
Aesthetic Doctor
Malaysia

Dr Ong Jin Khang
Aesthetic Doctor
Malaysia

Dr Lim Wooi Khai
Aesthetic Doctor
Malaysia

Dr Benji Teoh
Dermatologist
Malaysia

Dr Henry Foong Boon Bee
Dermatologist
Malaysia

Dr William Yap Wai Liam
Aesthetic Doctor
Malaysia

Dr Malcolm Lee
Aesthetic Doctor
Malaysia

Dr Nazelia Thibroni
Aesthetic Doctor
Malaysia

Dr Elizabeth Chang Wei Hsi
Dermatologist
Malaysia

Dr Ho Foo Soon
Aesthetic Doctor
Malaysia

Dr William Hoo
Aesthetic Doctor
Malaysia

Dr Chong Yeong Bin
Aesthetic Doctor
Malaysia

Dr Jessie Lim
Aesthetic Doctor
Malaysia

Dr Koh Kai Yee
Aesthetic Doctor
Malaysia

Dr Koh Ming Zhi
Aesthetic Doctor
Malaysia

Dr Lee Kin Hung
Aesthetic Doctor
Malaysia

Dr KC Chen
Aesthetic Doctor
Malaysia

Dr Kathryn Koh
Aesthetic Doctor
Malaysia

Dr Winnie Ong
Aesthetic Doctor
Malaysia

Dr Sean Tan Soon Kiat
Aesthetic Doctor
Malaysia

Dr Stephanie Young
Oculoplastic Surgeon
Singapore

Dr Lee Kok Siang
Aesthetic Doctor
Malaysia

AMSC MALAYSIA 2024

CONFERENCE AGENDA

AGENDA

DAY 1 | 20 September

CONFERENCE HALL 1

08:00 – 09:30	Registration, Networking, Booth Visits	
09:30 – 10:30	Latest Anatomy Concepts	Chairpersons: Dr Konstantin Frank, Dr Ong Kuok Tjun
	Opening Lecture Decoding the layers & finding balance between structures and envelopes of the face	Dr Konstantin Frank
	Panelists: Dr Luciano Lanfranchi, Dr Benrita Jitaree, Dr Kyuho Yi	
10:30 – 11:00	Coffee Break & Booth Visit	
11:00 – 12:00	Eye Opener: Periorbital Treatment Pearls from the Experts	Chairpersons: Dr Stephanie Young, Dr Daniel Chin
	Addressing the Tear Trough - Surgical & Non-surgical	Dr Stephanie Young
	Focus on the Under Eye: the Palma Technique	Dr Tom van Eijk
	Periorbital Rejuvenation using Non-Crosslinked HA with amino acids & peptides	Dr Kiêu Mai Mỹ Dung
	Periorbital Rejuvenation with Fillers: why many failed?	Dr Tingsong Lim
12:00 – 13:00	Merz Lunch Symposium Mastering skin quality: Advancing the Science of Beauty	Chairpersons: Dr Tingsong Lim, Dr Siew Tuck Wah
	Welcome & Introduction	Dr Tingsong Lim
	Role of Radiesse® biostimulation in Regenerative Aesthetics	Dr Siew Tuck Wah
	Skin quality improvement with Belotero® Revive using micro -cannula	Dr Tingsong Lim
	Elevating skin quality with pure toxin	Dr Jani van Loghem
	Q&A	
13:00 – 13:30	Booth Visit	
13:30 – 14:30	Facial Contouring Tips by Experts	Chairpersons: Dr Jason Yip, Dr Thomas Low
	"Hybrid Lift" technique for total facial re-contouring	Dr Danai Praditsuan
	Innovation behind Liftera HIFU technology and its clinical application	Dr Saetawut Lertlukpreecha
	Sandwich Technique: Using World's Fastest Pico, Ethosome and PDO Thread for Multilayer Rejuvenation	Dr Park Young Jin
	Redefining the Age of Beauty: Clinically indicated timing for the transition from Non-surgical to Surgical Cosmetic Procedures	Dr Victor Cheong Mun Khan
14:30 – 15:30	Sealed With A Kiss: The Natural Lips Job	Chairpersons: Dr Arash Jalali, Dr Hannah Lo
	The 'Lip Tenting Technique' explained	Dr Tom van Eijk
	Rejuvenation & Beautification of Asian Lips	Dr Chatbongkoch Khemacheewakul
	Surgical vs Non-Surgical Lip Lift & Gender Difference	Dr Rami Haidar
	The TRIOLGY Lips	Dr Cheok Jia Rhong
15:30 – 16:00	Coffee Break & Booth Visit	
16:00 – 17:00	Experts Sharing in the World of Injectables	Chairpersons: Dr Douglas Yuen, Dr Elizabeth Lee
	Chin augmentation with filler: Is it that easy?	Dr Van Thai Thi Dieu
	Personalized Treatment with Fillers vs. Biostimulators	Dr Chatbongkoh Khenmacheewakul
	Drag Queen Transformation using Combination Injectable Treatments	Dr Cyril Mitchel Tecson Agan
	Rethinking Biorevitalization: A Dual Layer Approach With Jalupro For Optimized Patients' Outcome	Dr Elena Rummyantseva Mathey
	Depth Matters: A Comprehensive Exploration of the Clinical Applications of Polynucleotides	Dr UsHa Hoh
17:00 – 18:00	Biostimulators: Are We Creating Collagen or Scar Tissues?	Chairpersons: Dr Jani van Loghem, Dr Tingsong Lim
	New insights on the mode of action of CaHA	Dr Jani van Loghem
	Revisiting unaddressed tissue reactions by dermal injectables	Dr Chrang-Shi Lin
	Panelists: Dr Konstantin Frank, Dr Choi Ho Sung Dr Chrang-Shi Lin, Dr Siew Tuck Wah, Dr Luciano Lanfranchi	

AGENDA

DAY 1 | 20 September

CONFERENCE HALL 2

08:00 - 09:30	Registration, Networking, Booth Visits	
09:30 - 10:30	Medical Aesthetic License & Qualification Forum	Chairperson: Dr Masilamoney Asirvatham
	Dr Masilamoney Asirvatham Dr Chin Shih Choon Dr Hew Yin Keat Dr Najmi Bin Ismail Dato' Dr Noor Zalmy Azizan Dato' Dr N Sutina Nordin	
10:30 - 11:00	Coffee Break & Booth Visit	
11:00 - 12:00	Energy Based Devices to Explore in 2024	Chairpersons: Dr Hew Yin Keat, Dr Lee Kok Siang
	Optimizing Treatment Outcomes with Morpheus 8 for Facial Applications	Dr Sach Mohan
	Picosecond lasers vs non- ablative fractional lasers extended uses	Dr Davin Lim
	Different Stokes for Different Folks: Combination Approach to Acne Scars	Dr Ngiam Juzheng
	Next Generation of Lasers: Dual Wavelength Laser Emitting 1550nm and 1927nm	Dr Ling Hee Ninh (Ruth)
12:00 - 13:00	JLC Lunch Symposium	Chairperson: Dr Elizabeth Lee
	Treating post-burn and post- traumatic scars: New Approaches - International Consensual Recommendations	Dr Oleksandr Turkevych
	Collagen Progressive Bio- Restructuring - The New Therapeutic Approaches from Pre-aging to Anti-Aging	Dr Antonino De Pasquale
13:00 - 13:30	Booth Visit	
13:30 - 14:30	Allergan 360	Chairperson: Dr Anna Hoo
	Transformation 360 with Allergan Portfolio	Dr Sylvia Ramirez
14:30 - 15:30	Mandarin Sessions 中文论坛	Chairpersons: Dr Allan Yong, Dr Koh Ming Zhi
	面颈部年轻化的治疗手段	Dr Terry Yen Shih Chun
	从微观视角, 探讨目前除斑 处置手段忽略的盲点	Dr Chrang-Shi Lin
	视觉美学 与光影设计基础	Dr Liow Tiong Sin
	注射胶原眶周年轻化应用	Dr Li Yuan Hong
15:30 - 16:00	Coffee Break & Booth Visit	
16:00 - 17:00	Integrative, Lifestyle & Anti- Aging Medicine	Chairpersons: Dr Aren Yong, Dr Ho Foo Soon
	Dwelling into the science of curing from within	Dr Naline Sutthipisal
	Systemic Approach to Anti-Aging	Dr Arash Jalali
	Tipping the scale in pediatric obesity	Dr Joel L. Javate
	Ageless Beauty: Tailored Aesthetic Solutions for Every Stage of Life	Dr Edmond Lau
17:00 - 18:00	Clinical Photography	Chairpersons: Dr Dinesh Kanasen, Dr Raimie Bin Rahmad
	Smartphone photography in aesthetic dermatology	Dr Leong Kin Fon
	The Power of Digital Image in our Aesthetic Practice	Mr Jan Raymond Conadera
	How to take good photos for patients coming for Hair and Scalp Treatments	Dr Aly Stephen Nah
	Clinical Photography for Body Aesthetics	Dr Farid Kazem

AGENDA

DAY 1 | 20 September

CONFERENCE HALL 3

08:00 – 09:30	Registration, Networking, Booth Visits	
09:30 – 10:30	Surgical Face & Neck	Chairpersons: Dr Tze Ming Yeoh (Jimmy), Dr Kian Tjon Tan
	Current Approach in Deep Plane Face Lift	Dr Yap Lok Huei
	Surgical approach to neck rejuvenation	Dr Kian Tjon Tan
	Surgical Eyebrow Lifting	Dr Rami Haidar
	Surgical and Non-surgical Management of Platysma	Dr Jagjeet Singh
10.30 – 11:00	Coffee Break & Booth Visit	
11:00 – 12:00	Medical & Surgical Rhinoplasty	Chairpersons: Dr Tze Ming Yeoh (Jimmy), Dr Daniel Yap
	Nose Augmentation: What should we be aware of?	Dr Luciano Lanfranchi
	A Balancing Act: Navigating The Risks and Benefits of Non-Surgical Rhinoplasty	Dr Arash Jalali
	Nasal Reconstruction	Dr John Ranjit
	Structure approach for thread augmentation and correctional rhinoplasty for Asians	Sky Wong
12:00 – 13:00	Wontech Lunch Symposium	Chairpersons: Dr Tristan Tan, Dr Lim Wooi Khai
	Treat the eyes with comfort with the new precise Monopolar RF Device	Dr Ong Kuok Tjun
	Forget 'No Pain, No Gain': Discover How Oligio Redefines Less Pain, More Gain in Skin Tightening	Dr Jason Yip
	Optimizing Dermatological Outcomes: Leveraging the Unique Advantages of 755nm and 1064nm Pico Lasers	Dr Park Young Jin
13:00 - 13:30	Booth Visit	
13:30 – 14:30	Surgical & Nonsurgical Body Shaping Strategies	Chairpersons: Dr Yap Lok Huei, Dr Farid Kazem
	A review of 1000 Liposuctions in Tumescence Local Anesthesia in Lipedema Patients	Dr Martin Barsch
	Too big or not too big - the Levant experience with VASER liposuction and fat transfer	Dr Christopher Lee Chung Hou
	Lipo Abdominoplasty	Dr Ananda Dorai
	Clinical Applications of Radiofrequency assisted Liposuction	Dr Terry Yen Shih Chun
14:30 – 15:30	Fighting Balding: Bold Approaches	Chairpersons: Dr Aly Stephen Nah, Dr Ho Meng Jun
	Why is my AGA treatment not working?	Dr Foo Wing Jian
	The Efficacy of Combination Therapy for Androgenic Alopecia Across Diverse Ethnic Groups and Analysis of Treatment Outcomes	Dr Youngseob Lee
	Medical treatments for androgenetic alopecia	Dr Nicole Chiang
	Tailoring the future: The role of Genetic Testing in Personalized Hair Loss Treatments	Dr Maria Julieta Arambulo- Cordero
	Stem Cell Containing Perifollicular Tissue Injection of Transacted Units in FUE Hair Transplantation: Outcomes and Future Projections	Dr Omer Buhsem
15:30 – 16:00	Coffee Break & Booth Visit	
16:00 – 17:00	New Toys For Medical Face Lifts Where Are We Now?	Chairpersons: Dr Kathryn Koh, Dr Jason Ho
	HIFES: building the skin foundation by working on the deep collagenous tissues of the face	Dr Tingsong Lim
	JOVENA: A new way of Lifting	Dr Hannah Lo
	TITANIUM LIFTING: Current SAMPAJANG Skin Tightening Laser in Korea	Dr Kyuho Yi
	K-POP Lifting: The New Monopolar RF for Lifting with comfort and style	Dr Park Young Jin
17:00 – 18:00	Exosomes and Cell Therapy	Chairpersons: Dr Lynda Quah, Dr Elizabeth Chang Wei Hsi
	Exploring the Power of Exosomes in Cutaneous Medical Aesthetics: Our Philippine Experience	Dr Jacqueline Luna
	Navigating Exosomes in Aesthetic Dermatology: A Critical Approach to the Latest Insights	Dr Patrick Huang
	Exosome Therapy: The Future of Skin and Hair Rejuvenation	Dr Steve Chia
	How Well Do You Know Your Exosome? Advanced Insights into Its Bioprocessing and Scientific Rigor	Dr Daniel Looi Qi Hao

AGENDA

DAY 2 | 21 September

CONFERENCE HALL 1

08:00 – 09:30	Coffee Break & Booth Visit	
09:30 – 10:30	Injection Safety with Ultrasound Imaging	Chairpersons: Dr Ong Kuok Tjun, Dr Edmond Lau
	Ultrasound for Fillers: Revolution or Hype?	Dr Siew Tuck Wah
	New lessons for filler injectors coming from ultrasound imaging	Dr Peter Velthius
	Injection Safety with Ultrasound	Dr Edmond Lau
10:30 – 11:00	Booth Visit	
11:00 – 12:00	Injectables Complications	Chairpersons: Dr Alice Goh, Dr Oh Soon Keon
	Complications and Prevention of Hyaluronic Acid Fillers for Skin Quality Improvement	Dr Atsushi Hayashi
	The Biggest Problem with Filler	Dr Gavin Chan
	Dissecting the Science behind Injectable Complications and ways to prevent them	Dr Jani van Loghem
	Updates on Blindness Complications	Dr Alice Goh
12:00 – 13:00	Allergan Lunch Symposium	Chairperson: Dr Jason Teng Jia Hao
	Your Choice: Delivering More and Fostering Trust with Patients	Dr Chaloechai Sriakrapong
13:00 – 13:30	BOOTH VISIT	
13:30 – 14:30	Breaking Barriers of Intimate Medicine	Chairpersons: Dr Nurul Ain, Dr Hannah Lo
	The Transformative Frequency for Intimate Wellness	Dr Thisara Weerasamai
	Intimate Health Through the Ages: The Essential Role of Self- Care	Dr Nurul Ain Abdullah
	Weight optimization in TTC patients	Dr Maiza Tusimin
	Unlocking the NRose Effect: The Future of Non-invasive Vaginal Rejuvenation	Dr Vivien See Kai Ying
14:30 – 15:30	What's NEW with Injectables	Chairpersons: Dr Jason Teng Jia Hao, Dr Aina Aszeme
	Periorbital Rejuvenation with Injectable Collagen	Dr Li Yuan Hong
	Unleashing the potentials of injectable polynucleotides	Dr Tingsong Lim
	Setting the soil right for the scalp with polynucleotides	Dr Aly Stephen Nah
	Synergistic Approach to Facial Revitalization using RnR (Radiesse & Revive)	Dr Liow Tiong Sin
15:30 – 16:00	Coffee Break & Booth Visit	
16:00 – 17:00	Exploring the Potentials of Biostimulators	Chairpersons: Dr Jeff Huang, Dr Derrick Liew
	Updates on Trendy Topics of Biostimulators	Dr Jeff Huang
	The Power of Biostimulators combined with Skin boosters to improve Skin Quality and rejuvenate the face with a natural outcome	Dr Omar Haroon
	Improvement of Facial Skin Laxity by a Combined Technique with Hyaluronic Acid and Calcium Hydroxyapatite	Dr Cam Thuy, Pham
	PDLA injection techniques for males to enhance their face	Dr Kamphon Socharoentam
17:15 – 17:30	Lucky Draw	
18:00 – 21:30	GALA NIGHT	

AGENDA

DAY 2 | 21 September

CONFERENCE HALL 2

08:00 - 09:30	Coffee Break & Booth Visit	
09:30 - 10:30	Weight Management & Non-invasive Body Contouring	Chairpersons: Dr Ong Jin Khang, Dr Koh Kai Yee
	Injection Lipolysis: The Past & The Future	Dr Jeff Huang
	60 Approach in Body Aesthetics	Dr Farid Kazem
	Managing Patients in Body Aesthetic Treatments	Dr Christopher Lee Chung Hou
	One year follow up, Evaluation Of The Impact Of HIFEM + RF In Post-Partum Women	Dr Hannah Lo
10:30 - 11:00	Booth Visit	
11:00 - 12:00	Regenerative Aesthetics	Chairpersons: Dato' Dr N Sutina Nordin, Dr Amirul Nazri
	Regeneration by New Injection Concepts	Sky Wong
	Adipose Tissue Stromal Cells for Regenerative Therapies	Dr Lee Kim Siea
	Monitoring Improvement Over 18 Months After Treatment for Skin Pores, Melasma, and Rosacea	Dr Youngseob Lee
	Clinical Use of Regenerative Biostimulators for Face & Neck	Dr Choi Ho Sung
12:00 - 13:00	Elogio Asia Lunch Symposium	Chairpersons: Dr Stephanie Young, Dr Nazelia Thibroni
	Periorbital rejuvenation with Biorevitalizer & Biostimulator	Dr Stephanie Young
	Achieving Better Clinical Outcome of DOT-PN through Multimodality Approach	Dr Choi Ho Sung
	Scaffold structure of Rejuran & Combination protocol	Dr Kyuho Yi
13:00 - 13:30	Booth Visit	
13:30 - 14:30	Harnessing the Potentials of Bio-rehabilitation	Chairpersons: Dr Rasool Shaik Mohamed, Dr William Yap Wai Liam
	P.E.M.F. The Fifth Element of Life	Dr Nalinee Sutthipisal
	Restoring your ECM Health with Vacuum assisted Electromagnetic Field	Dr Tingsong Lim
	Fluorescence Light for mitochondria activation: The new approach to skin healing	Dr Ling Hee Ninh (Ruth)
	The Inseparable relationship between muscle & health	Dr Siew Tuck Wah
14:30 - 15:30	Aesthetic Pearls from Around the World	Chairpersons: Dr Darren Teo Chee Yang, Dr William Hoo
	JOURNEY OF THE FACE - An innovative approach for aesthetic consultation	Dr Omar Haroon
	Multi-layer approach: State of art for combined treatment modalities	Dr Danai Praditsuan
	PEG HA: taking it to the limit	Dr Luciano Lanfranchi
	Optimizing The Effect Of New Version Of Bioaesthetic - Points Injection	Dr Bui Nguyen Phuong Anh
15:30 - 16:00	Coffee Break & Booth Visit	
16:00 - 17:00	Pulling Strings: Threads and Combinations	Chairpersons: Dr KC Chen, Dr Jessie Lim
	Thread lifting procedure: Complications and Anatomy	Dr Kyuho Yi
	Sexy Jaw: Improving The Jawline With Threads	Dr Cyril Mitchel Tecson Agan
	Combination treatments for pulling up the face	Dr Jesse Chong
	Mid & Lower Face Contouring by Combining Coiled PDO Threads & Highly Cohesive HA Filler	Dr Choi Ho Sung
17:15 - 17:30	Lucky Draw	
18:00 - 21:30	GALA NIGHT	

AGENDA

DAY 2 | 21 September

CONFERENCE HALL 3

08:00 - 09:30	Coffee Break & Booth Visit	
09:30 - 10:30	Fighting Skin on Fire	Chairpersons: Dr Benji Teoh, Dr Henry Foong Boon Bee
	Common skin condition that aesthetic practitioner missed	Dr Wong Siu Bee
	Sensitive, allergy or not? What to do?	Dr Lee Sut Enn
	Skin care - friend or foe	Dr E Chia Qi
	Rapid fire dousing	
10:30 - 11:00	Booth Visit	
11:00 - 12:00	Tackling Melasma	Chairpersons: Dr Kavin Tan, Dr Lim Jia Hong
	Shining a Light on Melasma: The Use of Fractional Ruby Laser in Asian Patients	Dr Patrick Huang
	Challenges in Melasma Management in Tropical Country	Dr Inneke Jane Hidajat
	Emerging Trends in Melasma Treatment	Dr Phyo Aung Su
	Setting the Soil right in Melasma Management	Dr Tingsong Lim
	Devices you need to have for your Melasma Clinic	Dr Davin Lim
13:00 - 13:30	Booth Visit	
13:30 - 14:30	Treating Scars	Chairpersons: Dr Lee Kin Hung, Dr Malcolm Lee
	Revolutionizing Skin Rejuvenation and Scar Revision with Needling Radiofrequency	Dr Patrick Huang
	New Treatment Method for Scars, Wrinkles and Skin rejuvenation	Dr Ki Woong Yu
	Soft tissue injectables as part of the acne scar treatment algorithm	Dr Davin Lim
	UltraClear: Revolutionary cold fiber laser for scar remodelling	Mr Benjamin White

	The Paradigm Shift: Toxing the forehead with Micro-Cannula	Dr Ong Kuok Tjun
	Beyond Muscles: Toxin for Skin Quality	Dr Siew Tuck Wah
17:15 - 17:30	Lucky Draw	
18:00 - 21:30	GALA NIGHT	

CADAVER DISSECTION HANDS-ON MASTERCLASS

Advanced Surgical Skills Centre (ASSC) HUKM
19 September 2024

Trainers of AMSC24 Cadaver Dissection Hands-On Masterclass

Dr Konstantin Frank
Plastic Surgery Resident
Spain

Dr Rami Haidar
Maxillofacial Surgeon
UAE

Dr Benrita Jitaree
Anatomist
Thailand

Dr Luciano Lanfranchi
Plastic Surgeon
Italy

Hands-On Dissection: Participants will have the opportunity to dissect fresh cadaver specimens in groups of 4 to 5, ensuring practical, experience.

Comprehensive Coverage: Every region of the face is meticulously explored, providing a holistic understanding of facial anatomy.

Technique-Specific Instruction: Injection techniques for each facial area are taught in relation to the underlying anatomical structures, enhancing procedural precision.

Expert Guidance: Learn directly from globally renowned experts who bring a wealth of knowledge and clinical expertise.

Peer Collaboration: Collaborate and network with other advanced practitioners who are equally dedicated to clinical excellence.

Interactive Learning Environment: Engage in real-time Q&A sessions and discussions with experts for latest injection protocols

Clinical Relevance: Every anatomical detail discussed is linked to clinical implications, making the knowledge immediately applicable to your practice.

Safety Emphasis: Gain in-depth understanding of how to anticipate, prevent, and manage complications, prioritizing patient safety.

Global Perspectives: With experts from other parts of the world bringing together diverse international approaches and techniques.

Certification of Mastery: Receive recognition for your commitment to excellence with a certification that signifies your advanced skill level.

Future Preparedness: Equip yourself with the knowledge to adopt and adapt to future advancements in facial aesthetic procedures.

Enhanced Patient Outcomes: Apply your enhanced skills to deliver superior results, increasing patient satisfaction and loyalty.

BUSINESS MANAGEMENT TALK (BMT)

TALK ABOUT BUSINESS INSIGHTFUL DISCUSSION

1st ever non-clinical track, focusing on business management talk!

Maximizing your aesthetic clinic's potential
by leveraging the growth of your clinical staff.

20 & 21 September 2024
Location: Exhibition Area

Who should attend:

Management
- Clinic Owners /
Investors,
Department Heads
and Managers

Allied Health
Professionals,
Healthcare
Practitioners
and Nurses

Medical
Assistants,
Receptionist and
Administrators

Medical
Doctors and
Students

**Ballroom
1 & 2,
Level 3
(Exhibition Hall)**

REFER NEXT PAGE FOR BMT AGENDA ►

20 Sept 2024

10.00am - 10.30am

The Business Talk: Expansion Plan

Developing strategies and considerations for scaling your business beyond its current scope.

Amanda Sabri
Managing Director, Ramalan

10.30am - 11.00am

Building a Sustainable Ecosystem: The Role of Purpose, Vision, and Collaboration in Personal Growth

Explore how an ecosystem driven by clear purpose, vision, and collaboration can unlock new opportunities for business growth and innovation. Drawing from experiences in the wellbeing space, highlights the importance of aligning diverse stakeholders towards common goals. The discussion will cover how purpose and vision guide strategic decisions while collaboration fosters continuous improvement and adaptability.

Edwin J. Alexandor
Founder of Horizon Avenue

11.00am - 11.30am

The Power Of Branding & Marketing

Understanding how branding and strategic marketing can enhance visibility and attract clients.

Dr Lim Ing Kien
Key Opinion Leader /
Founder of Ventamin

2.00pm - 2.30pm

Setting up your first clinic

Essential & important steps and considerations involved in setting up the Aesthetic clinic in Malaysia.

Dr Vivek
Co-founder of Disruptive Doctor

Mowindran Ravichandran
Director of HNM Healthcare Solutions

2.30pm - 3.00pm

Safeguard your reputation: Managing online reviews

Strategies for monitoring, responding to, and leveraging online reviews to maintain and build a strong brand reputation and have a greater influence over your brand message.

Coach Cheanu
Cheanu Chiew Coaching

3.00pm - 3.30pm

Data-Driven Decisions: Enhancing Clinic Operations Through Advanced Software Solutions

How can software be the backbone of clinic operations - influencing patient care, regulatory compliance, and overall efficiency.

Francis Siow
Senior Key Account Manager,
Kumo™

21 Sept 2024

10.00am - 10.30am

Investing in Your Team: Strategies for Effective Staff Training and Development

Importance of investing in staff training and development to enhance skills and productivity.

Dr Amelia Siah
Founder of Aglow Clinic

10.30am - 11.00am

Futureproofing Your Clinic: Streamlined HR

Implementing efficient human resources practices to ensure long-term sustainability and growth.

Aiden Liew
Founder and CEO of
Right House HR Shared Services

11.00am - 11.30am

Understanding The Psychology of the needle - Phobic Patients

Delve into the psychology behind needle phobia, a common hurdle in aesthetic medicine. This will help you to explore why patients experience intense fear of injections and how it impacts their treatment decisions.

Dr Nurul Ain
Founder of Alainn Clinic

2.00pm - 2.30pm

How to deal with bargaining patients

Sales Negotiation Strategies & Tips from Negotiation Experts

ULTRASOUND ANATOMY WORKSHOP

1 DAY BASE COURSE

Led By Dr Peter Velthuis

POST-CONFERENCE

22 September 2024
Kuala Lumpur, Malaysia

Workshop will:

train you in performing
ultrasound
guided-injections

be able to interpret the US
images on your screen

be able to identify anatomical
structures, including blood
vessels, muscles, foramina, etc.

be able to identify any
filler material

have raised your
professional development
in cosmetic medicine

Open to ALL who are:

- Cosmetic doctors, dermatologists & nurse practitioners
- Seeking to acquire basic facial ultrasound skills or integrate it into their practice
- Practitioners already familiar with facial ultrasound seeking to advance their knowledge and techniques.
- Authorized injectors aiming to enhance safety and quality.

Dermatologist
Netherlands

NOVEL TECHNIQUE FOR ROSACEA TREATMENT USING OPTIMAL PULSE TECHNOLOGY: IN VIVO AND CLINICAL STUDIES

JIACHEN YUAN MD, ID | YANG GAO MD | LONGQUAN PI MD, PHD | ZHOUNA LI MD, PHD | MEILAN NAN MD, PHD | ZHEHU JIN MD, PHD | CHENGLONG JIN MD, PH

Background:

Rosacea is a chronic inflammatory skin disease affecting the face, with current treatments often yielding unsatisfactory results. In this study, we employed the MEICET Skin Analyzer to monitor treatment efficacy and developed a novel therapeutic approach using advanced optimal pulse technology (AOPT-LTL), characterized by low energy, three pulses, and a long pulse width.

Materials and Methods:

Morphological, histological, and immunohistochemical analyses were conducted to evaluate AOPT-LTL's effects in LL-37-induced rosacea-like mice. Additionally, 23 ETR patients received AOPT-LTL treatments at 2-week intervals, depending on their condition's severity. Treatment outcomes were measured using MEICET Skin Analyzer photographs and scoring systems, with comparisons made at baseline, 1 week, and 3 months post-treatment.

Conclusion:

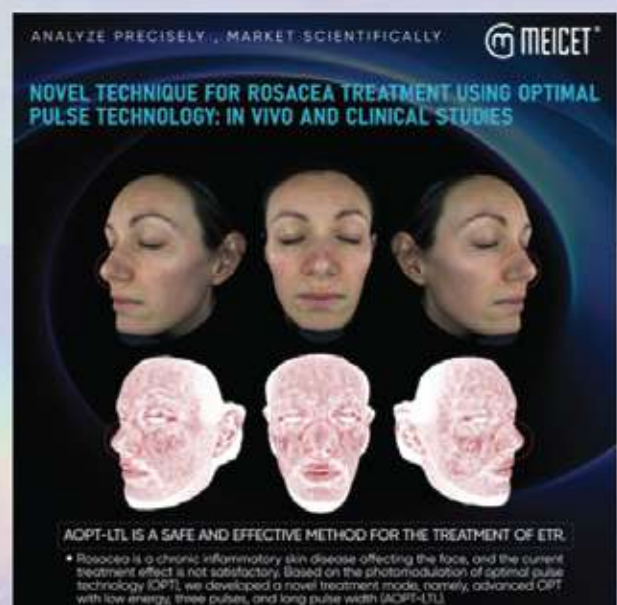

AOPT-LTL, combined with the MEICET Skin Analyzer, proves to be a safe and effective treatment for ETR, offering considerable improvement in rosacea management. This study underscores the potential of AOPT-LTL as a novel therapeutic option and the utility of the MEICET system in evaluating treatment efficacy.

Aims:

The study aimed to assess the feasibility, safety, and molecular mechanisms of AOPT-LTL treatment in a rosacea-like mouse model and its clinical efficacy in patients with erythematotelangiectatic rosacea (ETR).

Results:

In the mouse model, AOPT-LTL significantly reduced rosacea-like symptoms, including inflammatory cell infiltration and vascular abnormalities, while inhibiting key molecular pathways associated with rosacea. Clinically, ETR patients exhibited substantial improvement in erythema and flushing, confirmed by MEICET Skin Analyzer data, with no serious adverse events observed.

Liraglutide for Weight Management in a Malaysian Cohort : A One-year Observational Study

Nurul Ain Abdullah, Daniel Chin Hong Jeng, Ferhana Deba, Deanna Reesha, Farizah Ali, Fardziana Abu Zaki.

Álainn Clinic, Malaysia.

BACKGROUND

Obesity is a global health epidemic, with Malaysia experiencing a significant rise in prevalence. While lifestyle modifications are cornerstone strategies, pharmacological interventions have emerged as essential adjuncts in combating obesity. This study evaluates the real-world effectiveness of Liraglutide 3.0 mg, a GLP-1 receptor agonist, in managing weight among overweight and obese individuals in Malaysia.

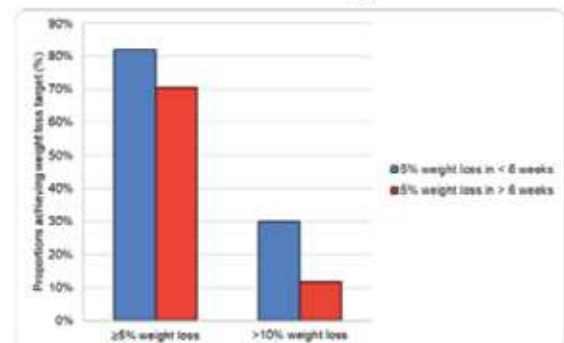

METHODS

This retrospective cohort study analyzed data from 131 overweight and obese patients at Álainn Clinic in Malaysia, who were treated with Liraglutide 3.0 mg between 1st January to 31st December 2022. Patients' sociodemographic, clinical characteristics, and weight-related outcomes were recorded at baseline and at multiple follow-up points up to 180 days. Statistical analyses were performed to evaluate weight loss and identify predictive factors for treatment response.

	Patients N (%)	Total Weight Loss Percentage
		Mean ± SD
Age Group		
<30	16 (12.2)	5.6 ± 4.3
30-39	64 (48.8)	5.6 ± 6.1
40-49	36 (27.4)	4.6 ± 3.5
50-59	14 (10.7)	5.3 ± 4.0
≥60	1 (0.8)	5.0
Gender		
Male	17 (13.0)	4.5 ± 3.1
Female	114 (87.0)	5.4 ± 4.0
Marital Status		
Married	89 (67.9)	5.8 ± 3.9
Single	42 (32.1)	4.2 ± 3.7
Menopausal Status		
Pre / Perimenopausal	110 (84.0)	5.4 ± 4.0
Menopausal	9 (3.8)	5.5 ± 3.6
Not Applicable	16 (12.2)	4.3 ± 3.2
Race		
Malay	102 (77.8)	5.1 ± 3.8
Chinese	9 (6.9)	6.4 ± 5.9
Indian	16 (12.2)	6.5 ± 3.2
Caucasian	2 (1.5)	10.2 ± 1.1
Others	2 (1.5)	11.4 ± 0.8
Location Type		
Urban	101 (77.1)	5.6 ± 4.0
Suburban	27 (20.6)	4.4 ± 3.5
Rural	3 (2.3)	4.1 ± 3.8
BMI Group		
Overweight	20 (22.8)	5.5 ± 4.0
Obese I	44 (33.6)	6.0 ± 4.0
Obese II	31 (23.7)	5.8 ± 4.5
Obese III	26 (19.8)	3.3 ± 1.9
HA1C Category		
Normal (<5.7%)	62 (47.3)	5.5 ± 4.0
Pre-Diabetes (5.7-6.2%)	31 (23.6)	5.1 ± 3.8
Diabetes (≥6.3%)	8 (7.8)	3.7 ± 3.4
Blood Pressure Category		
Hypertensive	15 (11.5)	5.4 ± 4.2
Normotensive	35 (26.6)	5.2 ± 4.4

RESULTS

The majority were married females (67.9%) aged 30-39 (48.9%), predominantly Malay (77.9%) and residing in urban areas. The mean weight loss over the study period was -4.4 ± 3.2 kg, with significant reductions observed at each follow-up. At 180 days, the mean weight loss percentage was -8.7 ± 6.3 %. Early responders, defined as those achieving ≥ 5 % weight loss within 6 weeks, showed a mean weight loss percentage of -8.3 ± 3.7 %. Weight loss was more pronounced in patients with class I and II obesity compared to those with class III obesity. Married patients exhibited slightly higher weight loss compared to single patients. No significant differences were found in weight loss based on age, gender, race, menopausal status, or baseline metabolic parameters. The duration of follow-up and compliance significantly correlated with the extent of weight loss.

CONCLUSION

This study demonstrates the efficacy of Liraglutide 3.0 mg as a weight management treatment in a Malaysian population. Consistent weight loss was observed across diverse patient demographics, with early treatment initiation and adherence linked to improved outcomes.

To optimize long-term weight management, further research is required to understand the influence of socioeconomic factors and explore potential combination therapies.

Evaluation of Botulinum Neurotoxin Type E Preparation (TrenibotulinumtoxinE) in the Mouse Digit Abduction Score (DAS) Assay

David Certy,¹ Gregory S. Nicholson,¹ Amy D. Bredau-Andersen,¹ Ron S. Broide¹

¹Allergan Anesthetics, an AbbVie Company, Irvine, CA, USA

OBJECTIVE

To characterize the pharmacological activity of trenibotulinumtoxinE (trenibotE) in the mouse DAS assay

TrenibotE yielded dose-dependent peak DAS and duration of effect profiles in the mouse DAS assay

TrenibotE showed an increased rate of onset and overall shorter duration of action relative to onabotulinumtoxinA (onabotA)

The unique temporal characteristics of trenibotE and differentiation in pharmacology from onabotA support the clinical development of this molecule

INTRODUCTION

- Seven classical serotypes of botulinum neurotoxin (BoNT) have been identified (A-G)
- Each serotype cleaves to a unique site on one or more of the intracellular proteins necessary for vesicular neurotransmitter release, resulting in transitory muscle paresis
- Currently, the most common BoNT serotype used commercially is BoNT type A (BoNT/A)
- BoNT/A has been well characterized for pharmacodynamic peak effect and duration in both pre-clinical and clinical settings
- A BoNT type E drug product (trenibotulinumtoxinE; trenibotE) has been developed which is currently being tested in clinical trials

METHODS

- The pharmacological activity of trenibotE was characterized in the mouse digit abduction score (DAS) assay
- The DAS assay measures the local muscle weakening effect of BoNT preparations as startle-induced digit abduction (toe spread) following intramuscular (IM) toxin injection into the hindlimb skeletal muscle
- The DAS is rated on a 5-point scale: '0' corresponds to normal digit abduction and '4' corresponds to absence of abduction¹
- TrenibotE was prepared and serially diluted in human serum albumin/0.9% saline to yield final injection solutions ranging from 18.2 – 182 U/kg
- At time 0, mice were given a 5 µL IM injection of a diluted test preparation into the right gastrocnemius muscle using a 30-gauge, 1/2 inch needle attached to a 250 µL glass syringe affixed to a repeat dispenser
- All groups were rated for DAS at hours 3, 6, 9, 12, 24, 27, 30, 48 and 72
- Duration of response curves were generated from the mean DAS over time, from N=3 separate studies (n=6 mice per group in each study; total n=18)

RESULTS

- TrenibotE showed a dose-dependent increase in mean peak DAS and duration of response in the mouse DAS assay (Figure 1)
- TrenibotE showed a faster onset of effect with an overall shorter duration compared with historical onabotA data at approximate equi-efficacious dosing in the mouse DAS assay (Figure 2)
- The trenibotE peak effect occurred within 12-24 hours in the mouse DAS assay; for onabotA it generally occurred by 48-72 hours (Figure 2)
- When dosed between an ED75-ED90 range in the mouse DAS assay, complete offset to baseline occurred by 72 hours for trenibotE compared with 2-3 weeks for onabotA (Figure 2)

Figure 1. TrenibotE Yielded a Dose-Dependent Peak DAS Response and Duration of Effect

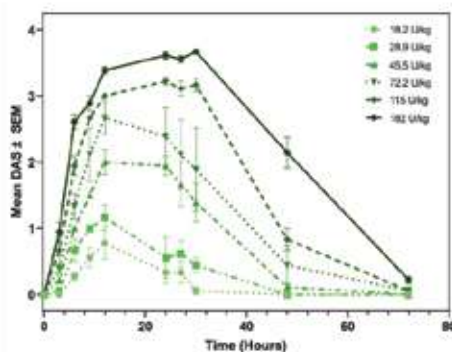

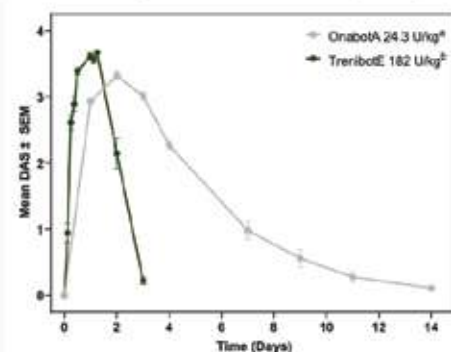

Figure 2. TrenibotE Showed a Faster Onset of Effect with a Shorter Duration Compared with OnabotulinumtoxinA (OnabotA)

¹Reference data for OnabotA taken from Phase III at 10-15, with n=10 mice per group in each study (data on file)
²Data for TrenibotE is the same as the 182 U/kg dose
³Reported at 2024 American Society of Anesthesiologists (ASA) Annual Meeting, October 10-14, 2024

A Prospective, Open-label, Post-marketing Study of the Safety and Effectiveness of HarmonyCa Injectable Gel for Midface Soft Tissue Augmentation: Interim Analysis

Researcher: Gail M.D., Maria Salomon, M.D., Emma Corcoran, M.D., Andrew Schumacher, M.D.
 Dr. Alessandro Gail and Plastic Reconstructive Surgery, Brescia, Italy; *HarmonyCa, an Allergan Company, Irvine, CA; **HarmonyCa, an Allergan Company, Irvine, CA; ***HarmonyCa, an Allergan Company, Irvine, CA; ****HarmonyCa, an Allergan Company, Irvine, CA; *****HarmonyCa, an Allergan Company, Irvine, CA

OBJECTIVE

To report interim safety and effectiveness data from a prospective open-label study of HarmonyCa (Allergan Aesthetics, an Allergan Company, Irvine, CA) for midface soft tissue augmentation

CONCLUSIONS

Treatment with HarmonyCa achieved clinically meaningful improvement in midface volume deficit that was maintained through 9 months

Most participants treated with HarmonyCa had improved investigator- and participant-assessed GAIS ratings and substantial improvements in FACE-Q scores

HarmonyCa was well tolerated

HarmonyCa is an injectable facial soft tissue filler containing calcium hydroxyapatite (CaHA) microspheres (55.7% w/w) embedded in cross-linked sodium hyaluronate (HA) gel (20 mg/mL).¹ The lidocaine version includes 0.3% (w/v) lidocaine HCl (20 mg/mL).¹ HarmonyCa, in a single ready-to-use syringe, provides an immediate filling and lifting effect from HA^{1,2} along with endogenous collagen production and a sustained lifting effect from CaHA.³

INTRODUCTION

Background

- HarmonyCa is an injectable facial soft tissue filler containing calcium hydroxyapatite (CaHA) microspheres (55.7% w/w) embedded in cross-linked sodium hyaluronate (HA) gel (20 mg/mL).¹ The lidocaine version includes 0.3% (w/v) lidocaine HCl (20 mg/mL).¹ HarmonyCa, in a single ready-to-use syringe, provides an immediate filling and lifting effect from HA^{1,2} along with endogenous collagen production and a sustained lifting effect from CaHA.³
- Although HarmonyCa is marketed in more than 30 countries, limited published prospective safety and effectiveness data are available
- This open-label study in France collected prospective data on HarmonyCa (HarmonyCa and HarmonyCa Lidocaine) to support ongoing registration in Europe and other areas

METHODS

Study Design: Prospective Open-label Post-marketing Study

Assessments

Primary Endpoints

• Rate of responders, participants with MPVCS at grade improvement from baseline at month 1

Secondary Endpoints

• Rate of participants with "improved" or "much improved" on Global Aesthetic Improvement Scale (GAIS) at month 1 as rated by investigator and participant
 • Change from baseline on FACE-Q Satisfaction with Cheeks and Satisfaction with Facial Appearance at month 1

Safety

• Injection site responses (ISRs), adverse events (AEs)

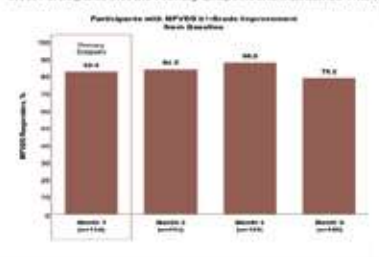

RESULTS

Most Participants Had Moderate Midface Volume Deficit

Baseline demographics and characteristics (N=140)	n (%)
Age group, years	
<35	5 (3.6)
35-65	95 (67.9)
>65	40 (28.6)
Sex	
Male	18 (12.9)
Female	122 (87.1)
Pezzarotto skin phototype	
I/II	76 (54.3)
III/IV	114 (81.4)
V/VI	0
MPVCS	
3 (moderate)	37 (26.4)
4 (significant)	39 (27.9)
5 (severe)	4 (2.9)

Percentages may not total 100% due to rounding

Most Participants Met the Primary Endpoint and Maintained This Response

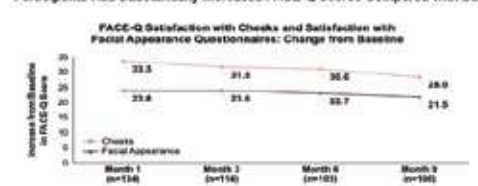

Presented at the Aesthetic Medicine & Surgery Conference (AMSC), September 20-21, 2024, Kuala Lumpur, Malaysia

Investigator- and Participant-rated GAIS Improved for Most Participants

Participants Had Substantially Increased FACE-Q Scores Compared with Baseline

HarmonyCa Was Well Tolerated

- Overall, a total of 86/140 participants (61.4%) had treatment-emergent AEs (TEAEs) and 12/140 participants (8.6%) had treatment-related TEAEs
- 3/140 participants (2.1%) had treatment-emergent serious AEs; none were considered to be treatment-related
- The most common treatment-related TEAEs were injection site pain (16.7%), injection site mass (10.7%), headache (7.9%), injection site bruising (4.3%), and injection site hematoma (3.6%)
- All were mild (50%) or moderate (19%) in severity
 - 38% resolved in 51 week, 15% resolved in 120 days
- 93.7% (132 of 140 participants with initial treatment diary data) experienced ISRs consistent with injections of HA or CaHA filler
 - The most common ISRs after initial treatment were tenderness to touch (8.7%), pain after injection (7.7%), and firmness (7.1%)
 - 31.3% of ISRs were minimal or moderate
 - 54.3% of ISRs resolved in 11 week

HarmonyCa, an Allergan Company

Dynamic Anatomy: Shedding Light on Ultrasonography as a Teaching Tool for MD Codes™–Guided Hyaluronic Acid Filler Injection

Námirod Fieber, MD¹; Leonie Schefke, MD, PhD²; Kerstin Kayser, MSc³

OBJECTIVE

Describe the value of applying ultrasonography for teaching facial HA filler injections according to the MD Codes™ methodology

CONCLUSIONS

Ultrasonography is a noninvasive, rapid, inexpensive, and convenient tool in facial aesthetics that can help injectors visualize anatomical structures (ie, tissues at different depths, blood vessels, danger zones).¹⁰

The use of ultrasonography for teaching MD Codes™ improves understanding of facial anatomy and the interplay between the different structures of the aging face.^{1,2}

Ultrasonography allows for correct placement of HA filler product, improves understanding of postinjection filler dynamics, and helps prevent potential complications.^{1,2,9}

STEM CELL CONTAINING PERIFOLLICULAR TISSUE INJECTION OF TRANSECTED UNITS IN FUE HAIR TRANSPLANTATION ; OUTCOMES AND FUTURE PROJECTIONS

Omer Buhsem M.D

Plastic Reconstructive and Aesthetic Surgery, Estetika Clinic Turkiye

ABSTRACT

Background

While Follicular Unit Extraction (FUE) has become a popular technique for hair transplantation and offers various advantages, such as the lack of a linear scar and faster wound healing, it is not without its own set of challenges, particularly when it comes to the risk of follicular transection. It is a common problem encountered even by experienced hands. On the other hand, it is a fact that in every hair transplantation, weak, damaged, insufficient grafts are left for the end and are mostly thrown away at the end of the procedure.

We know that the multipotent stem cells are located in the upper-region of the follicle. They (or their committed progenitors) migrate to the hair bulb to generate the hair lineage or to the upper part of the follicle to generate sebaceous glands. Thus, the bulge region of the follicle serves as a reservoir of multipotent stem cells.

In this study, we investigated the outcomes of the injection of stem cell-containing tissue around transected or unused hair follicles to patient during the transplantation.

Methods

This retrospective study was conducted to evaluate the outcomes of the injection of stem cell-containing tissue in hair transplantation procedures performed between January 2015 and October 2019. A total of 49 male patients who underwent hair transplantation during the study period were included. Inclusion criteria were adults aged 24-55 years with androgenetic alopecia who completed a follow-up period of at least 12 months post-surgery. Exclusion criteria were patients with prior hair transplantation, active scalp infections, or autoimmune disorders affecting hair growth. Patient records were reviewed to collect data on demographic details, extent of hair loss (assessed using the Norwood-Hamilton scale), surgical details (number of grafts transplanted, duration of surgery, and postoperative care), and follow-up outcomes. Digital photographs were taken before the procedure and at each follow-up visit.

Results

The overall graft survival rate, calculated by examining postoperative photographic evidence and density measurements was above 90%, mean postoperative healing score was 3.94 (4: Excellent healing with no complications), mean patient satisfaction score was 3,96 (4: very satisfied).

Conclusions

Our study suggested that the injection of stem cell-containing perifollicular tissue can improve the outcomes of FUE hair transplantation. The study suggests the need for further research with larger sample sizes and comparative studies for a comprehensive evaluation of treatment efficacy.

Sylfirm X

The Ultimate Edition

The World's 1st FDA-Approved Pulsed & Continuous Wave Microneedling RF Device. With its 300µm, the emerging Dual Wave Microneedling Radiofrequency Device can target up to the critical skin basal layer & create precise thermal coagulation for what's known as the NA Effect. **Sylfirm X** can treat skin discolorations like Melasma, as well as skin ageing issues i.e. saggingness, skin laxity & uneven texture.

LDM Triple 19

Water Drop Lift

The first-ever 19MHz in the medical aesthetics industry, **LDM Triple 19** is highly suitable either as a standalone or together with other modalities (such as Lasers or Microneedling treatments) to enhance their effects. **LDM Triple 19** is effective in skin regeneration and helps in reducing cell senescence - also known as cell debris.

PicoLo

*South Korea's award-winning
Genuine Picosecond Laser*

A next generation, truly picosecond Nd:YAG laser (1064nm & 532nm) designed to treat pigmentation lesions and perform tattoo removal, scar correction and skin rejuvenation.

This ultra short pulse targets pigmentations more effectively, minimizing discomfort, pain, side effects and downtime. PicoLO provides the largest spot size to allow faster treatments. Its award-winning design will provide you a more convenient procedure environment.

Aerolase Neo Elite ®

You Define the Limits. Not the Device.

Aerolase lasers are approved for 36 FDA Cleared Indications including Acne, Skin Rejuvenation, Rosacea, Psoriasis and Melasma. The Ultra-Short Pulsed 650-microseconds 1064nm Nd:YAG laser penetrates deep to target epidermal, dermal, and vascular structures, treating skin conditions on any patient of any age or skin type. Together with the high energy 650 Microsecond Technology in Neo Elite, it is made for those who want to take control, for those who want to defy limits, and for those who want to change the world of Skin Health.

QuadroStar Pro Yellow

The First Yellow Table-Top Laser For Dermatology

Pro Yellow Laser uses the **ideal wavelength - 577nm**, as it provides the best absorption when treating blood vessels. Furthermore, less power is used during treatment, leading to a number of advantages including minimising risks of side effects such as burns, thus making it safer for use on darker skin tones.

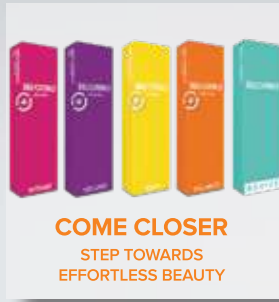

577nm wavelength is able to **penetrate further** into the skin than standard green lasers, enabling it to reach and treat deeper networks of veins. As Pro Yellow safely treats both visible lesions and underlying vessels more effectively than standard green lasers, they are less likely to recur.

Ultherapy®

Ultherapy® is the only U.S. FDA-cleared procedure that enables aesthetic physicians to directly see different anatomical layers of the skin it is treating to deliver safe, precise and optimal results.

COME CLOSER
STEP TOWARDS
EFFORTLESS BEAUTY

BELOTERO®

BELOTERO®'s range of CPM fillers are tailor-made to adapt to different facial areas and injection depths. BELOTERO lets you improve your appearance so you look naturally beautiful effortlessly.

RADIESSE®

Radiesse® is composed of calcium hydroxylapatite (CaHA) microspheres suspended in an aqueous gel carrier.

Radiesse® offers a unique **triple effect**

- + Vertical Lifting
- + Defining Contours
- + Stimulating Natural Collagen Production

XEOMIN®

The Pure Botulinum Toxin :

- Lower risk of neutralising antibody formation
- Lower risk of developing botulinum toxin resistance
- Safe, effective and natural-looking results after every treatment

CYNOGLOW™

CYNOURE®

PICOSURE PRO + POTENZA

This customizable, sequential treatment helps to:

- + Reduce the common signs of aging
- + Minimize pore size and improves blemishes for a smoother, more radiant complexion
- + Stimulate collagen production for tighter*, firmer* and younger-acting skin

PICOSURE PRO
PICOSECOND LASER

POTENZA
RF MICRONEEDLING

Why Choose DENSITY?

Patented α Tech

- Alternating Pulse Heating Algorithm delivers both monopolar + bipolar RF with one single shot
- One treatment with zero downtime
- Visible immediate improvement after treatment
- Continuous improvement and long term results up to 18 months
- Deliver up to 69% more energy per pulse compared to competitions.

Smooth and Adjustable Cooling (SAC)

SAC offers 5 adjustable levels with 3 stages, 7 step cooling pulses. This is extremely important for volumetric heating while ensuring patient comfort.

Realtime Impedance Calibration (RIC)

RIC ensures uniform customized and uniform delivery of RF energy for safe and maximum therapeutic results

Ease of Operation

- Large 15" touchscreen with intuitive GUI
- Auto-pulsing mode for smooth operation
- Magnetic holder for the handpiece and return pad, as well as hanger for the cable
- Spacious storage for tips, coupling fluid, and cryogen gas

ExoCoBio

The One hair & scalp solution that has never existed before. Multi effects on both scalp and hair at the same offering the best synergistic effect.

ASCE^{plus} HRLV

ASCEplus SRLV is a professional solution containing the world's first stem cell derived exosome filtered with our innovative technology ExoSCRT .

ASCE^{plus} SRLV

The World's First Intimate Rejuvenation based on ExoSCRT Exosomes.

ASCEplus IRLV is a comprehensive solution for intimate rejuvenation proven with US patented efficacies.

ASCE^{plus} IRLV

The exosome solution offers ultimate comfort, regenerates the skin barrier, and maximizes the clinical effects of various skin treatments, addressing a variety of skin problems.

ASCE^{plus} EXOBALM

LUTRONIC
Intelligent Care™

GENIUS

Lutronic Genius® delivers precision in every pulse. Using Intelligent RF Technology, exact depth is impeccably achieved with superior needle and handpiece design, ensuring consistently brilliant results on face, neck and multiple body areas. Pinpoint coagulation zones are achieved while maintaining maximum patient comfort through Real-Time Impedance Monitoring.

**laSèMD
ULTRA**

Lutronic ULTRA™ rebuilds glowing, healthy skin through non-ablative fractionated treatments. Tunable from mild to aggressive and extremely cost-effective, Lutronic ULTRA offers customized outcomes with virtually no downtime for all patients, all year round.

DERMA V

Lutronic DermaV™ Laser is a novel 532nm wavelength laser treatment with cryogen cooling that is used to reduce the appearance of hyperpigmentation, redness, and sun damage on the face, neck, and chest. The DermaV™ laser gradually reduces redness and photodamage, causing the blood vessels to absorb the light and coagulate the blood.

WONTECH

+82-10-2789-3023

aiden@wtlaser.com

<https://wtlaser-en.com/?redirect=no>

BOOTH NO. B016

Company profile :

Won Tech co, Ltd is a leading laser and energy-based medical device technology company that has been growing since establishing a laser device R&D center in 1998.

While other competitors are developing single solutions such as laser, ultrasound, and high frequency, we focus on securing the source technology to provide the right solution for all energy-based medical devices.

The WT convergence platform combines Won Tech's technology, Trend Catch (Market Trends, Customer Needs, Policy Trends) and clinical know-how to implement optimized product commercialization.

Self-owned technologies can be divided into laser-based technologies, energy-based technologies, and common-based technologies, and developed products are commercialized through non-clinical and clinical trials and established production, quality, and sales bases.

With a wide range of optimal combinations of underlying technologies (laser-based technologies, or a combination of common and energy-based technologies), Wontech has a portfolio of more than 50 laser and energy-based medical devices. As a representative product, Picocare received the Prime Minister's Award of the Year in 2020. Oligio, launched in June 2020, is recognized by customers through sales of more than 2000 units.

SR Biotek is a leader in cosmeceuticals and biotechnology, dedicated to nourishing beauty from within the skin. Since 2005, our mission has been to innovate skincare and deliver products of unparalleled quality to our partners. We are proud to announce our latest innovation: Altum Peptide.

Altum Peptide combines microscopic ocean-sponge spicules with collagen-boosting amino acids to create an incredible new formula that gently penetrates the skin and reduces wrinkles from within. This revolutionary skincare treatment enhances skin elasticity and promotes a youthful appearance.

Altum™ Peptide, our proprietary patented ingredient, is featured in IDENEL wrinkle care products. Extracted from the ocean, Altum™ Peptide combines micro-needles and high-efficacy peptides to penetrate the skin, enhancing elasticity and creating firm, healthy skin. Its effectiveness is proven by seven human application tests, including wrinkle improvement. Experience the transformative power of Altum™ Peptide for visibly firmer and revitalized skin.
